

A graduate of McMaster University (BA/BSW) Pete has had an extensive and varied career specializing in Telecommunications. He began his career with Bell Canada as a field technician and quickly moved into management roles and the position of Senior Director responsible for managing 2800 unionized employees and 111 managers. In that role Pete was responsible for provisioning and maintenance for over 4 million customers and an annual budget in excess of \$465 million dollars.

Since retiring in 2010 Pete has worked for Telecon as a project manager responsible for the engineering and design of fibre optic placement in Sudbury, North Bay, SSM, Timmins and all surrounding communities. He was also responsible for relationship management with several large firms in the GTA.

He currently sits as chair and is a board member of the Dufferin Board of Trade, chairs the Orangeville Economic Development Committee, is a member of the Dufferin County Economic Development Committee. Pete is a former member and president of the Greater Dufferin Area Chamber of Commerce and was an active volunteer at Family Transition Place as board member, finance committee, board vice president, board president and chaired the MENTor's committee.
